FocalPoint[®] Graphic Workstation

Description

The Gamewell-FCI, FocalPoint[®] Graphic Workstation is a PC-based graphic user interface that connects to the 7200, 7100, E3 Series[®] or 600 Series of fire alarm control panels via the Gateway interface. It can be connected to a proprietary or shared TCP/IP network. The FocalPoint Workstation is a high-performance industrial computer that provides text and color graphic display of fire alarm control panel network events and locations. This central command station displays systems' activities in real-time. One workstation has the capacity of simultaneously monitoring multiple FocalPoint Gateways that can be connected to the following systems:

- Standalone 600 Series • 600 Series Networks
- Standalone 7100 • 7100 NetSOLO[®] Networks
- Standalone E3 Series • E3 Series Networks
- 7200 Series

The FocalPoint Graphic Workstation supports a broad scope of commercial, industrial and institutional applications. The system can be configured to monitor multiple systems installed in remote locations to meet the facility requirements of multi-building complexes.

The Workstation is used as a decision support tool by facilities management and security personnel. This workstation uses graphic images to display information that allows personnel to quickly evaluate the emergency and make prompt and informed decisions. From a single screen, a workstation operator can:

- Magnify the facility map using the "zoom in" and "zoom out" feature to view floor plans or identify the location and type of multiple events.
- Monitor remote site activity and link multimedia (text, audio, video, and bitmaps) to any device.
- View the event history log on the same screen as the facility floor plans to evaluate the sequence of events.
- Print reports of system-wide events in real-time.
- Display History Manager records for operator, event, and response (with time and date stamp to disk).

E3 Series[®], FocalPoint[®] and NetSOLO[®] are registered trademarks of Honeywell International, Inc. Core[™] is a trademark of Intel[®] Corporation. UL[®] is a registered trademark of Underwriters Laboratories. Microsoft[®] Windows[®] is a registered trademark of Microsoft[®] Corporation.

PC-Based Graphic User Interface

FocalPoint Graphic Workstation

Features

- Listed under UL[®] Standard 864, 9th Edition
- Flexible Remote Control - Using the workstation with the 7200 Series, E3 Series[®] and 600 Series, the following fire alarm functions can be activated via remote control:
 - Acknowledge
 - Reset
 - Silence
- User-Friendly System Setup - Import facility floor plans as Windows[®] graphic bitmaps or Windows[®] graphic meta files
- Secure Access - Security profiles provide multiple levels of access to different user types
- Improved System Maintenance - Reports and logs trouble events
- Automatic Screen Navigation -(selectable for each device) that locates and zooms to the device related to an alarm or event, based on the priority of the event
- Backup capability - System backups for screen, user, or history databases. All software is backed up on CD-RW
- Information Labels - Identify Hazardous Material (HAZMAT) and handicapped accessible areas using fully linked multimedia

Description (Continued)

Use this graphic workstation to evaluate complex situations and quickly make strategic decisions when monitoring the fire alarm control system. During an emergency, where information must be evaluated in seconds, using a small, LCD screen to navigate a fire alarm control panel is arduous and time-consuming. The Workstation greatly simplifies the management of medium to large size fire alarm control systems. Operators can use this workstation to view the status of multiple fire alarm systems and track system events in real-time from a central location.

FocalPoint Workstation:

- Rack-mountable 2.16 GHz Intel® Core™ 2 Duo processor with 2 GBytes of RAM.
- 19" (48 cm) flat-screen LCD monitor, capable of 1024 x 768 display resolution with sound card and speakers.
- Operates under Microsoft® Windows® XP Professional SP2.
- UL 864 9th Edition Listed.

Graphics:

- Graphic editing mode allows on-site programming of floor plan screens, device icons, functional and navigational buttons.
- Imports the following types of converted vector drawing files from CAD floor plan drawings:
 - .WMF
 - .JPG
 - .BMP
 - .GIF
- Graphics printing of floor plans and reports.
- Custom-designed, device icon colors that represent each event type.

Minimum System Requirements:

- Intel® Pentium® IV, 2.0 GHz processor.
- Graphics card capable of supporting 1024 x 768 screen resolution.
- Auxiliary ports:
 - One (1), RS-232 port and serial cable for event printer operation.
 - One (1), parallel printer port for graphics printing.
 - One (1), USB port for software key.
- 1 GB RAM.
- 20 GB.
- CD-RW drive.
- Audio with speakers.
- Microsoft Windows® XP Service Pack 2.
- Microsoft serial PS/2—compatible mouse.
- 101-key keyboard.

Network:

- Ethernet network.

FocalPoint Gateway

FocalPoint Gateway

The FocalPoint Gateway is a powerful interface that provides the capacity to monitor multiple networks installed in remote locations. The gateway interfaces with the 7200, 7100, E3 and 600 Series standalone and network product lines via the panel's RS-232 port. In addition, the gateway can be used to connect to the FocalPoint Graphic Workstation via a standard Ethernet TCP/IP networking. Using a wireless connection, the gateway can also transmit to the non-control, FocalPoint Mobile Workstation.

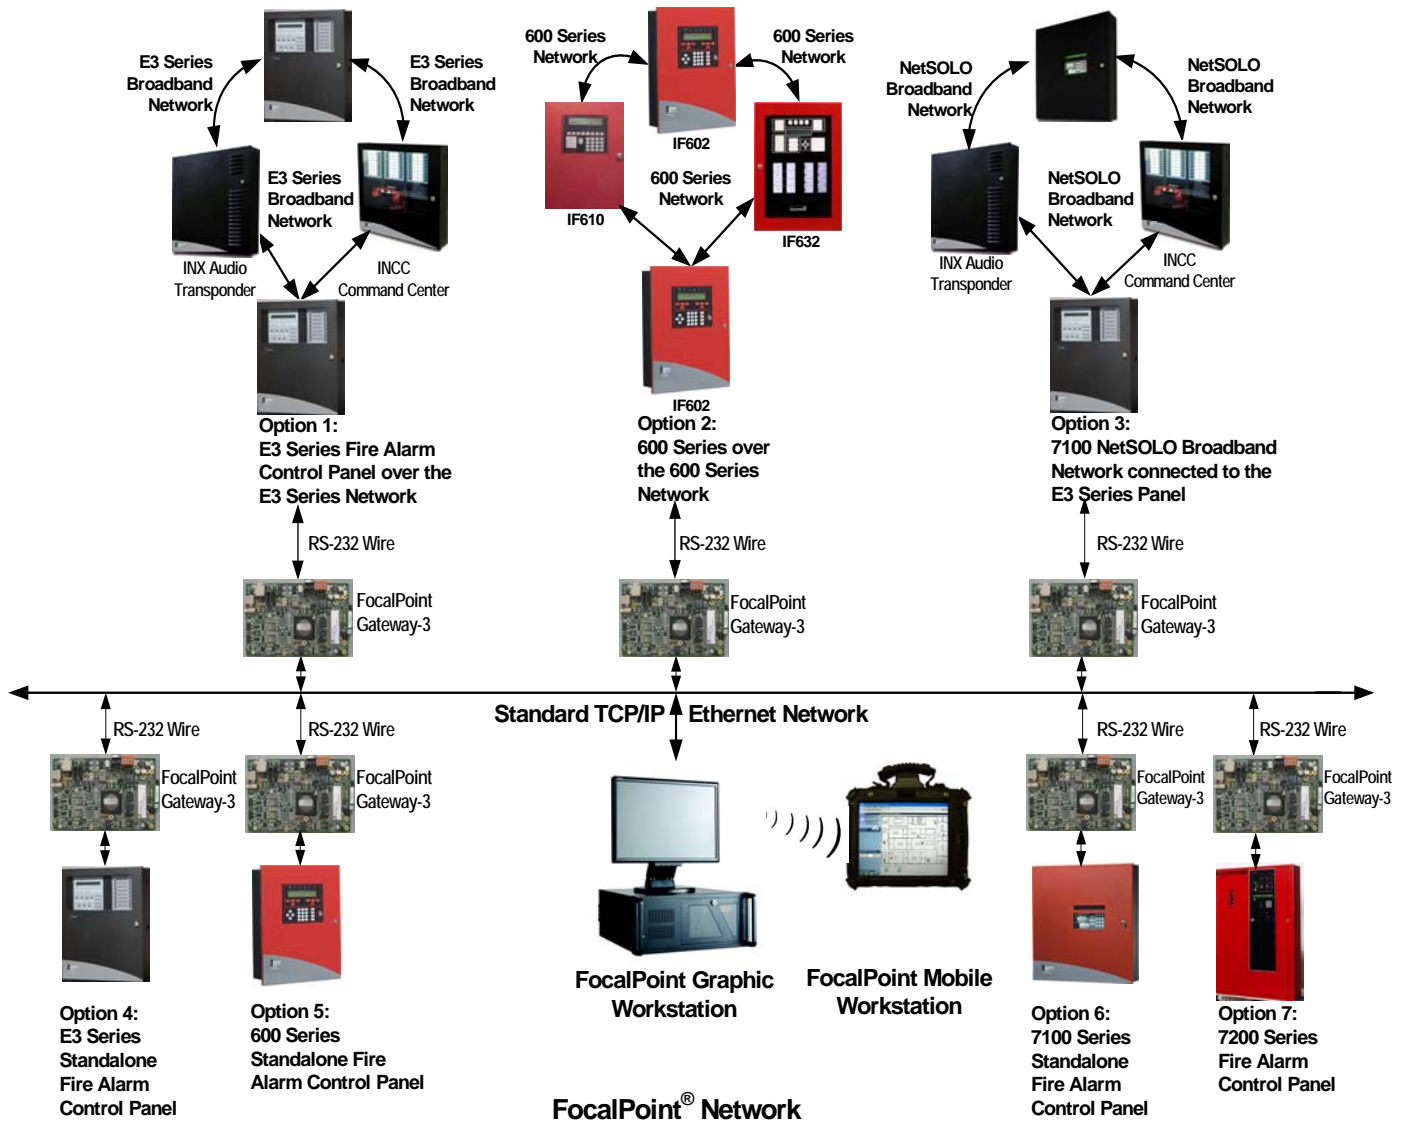

Figure 1 illustrates the adaptable, flexibility of the FocalPoint Gateway to connect to any of the following types of network installation options:

- Option 1: E3 Series network.
- Option 2: 600 Series network.
- Option 3: 7100 NetSOLO Broadband network connected to the E3 Series Panel.
- Option 4: E3 Series standalone.
- Option 5: 600 Series standalone.
- Option 6: 7100 Series standalone.
- Option 7: 7200 Series standalone.

Specifications

CPU	19" W x 7" H x 17.7" D
Dimensions:	(48.3 x 17.8 x 45 cm) weight: 39 lbs. (17.7 kg)
CPU	AC Input:
Electrical:	(frequency 50/60 Hz), 7.0 A @ 115 V (95-132 V), 4.0 @ 230 V (185-264 V)
Monitor	19" (48 cm) flat-screen LCD color monitor
Dimensions:	16.5" W x 17.2" H x 7.8" D (42 x 44 x 20 cm) weight: 15.6 lbs. (7 kg)
Monitor	AC Input:
Electrical:	(frequency 50/60 Hz auto-adjust) 1.8 A @ 120 - 240 VAC. Power consumption: 43 watts (maximum)

Ordering Information

Part Number	Description
FPT-GATE-3	FocalPoint Gateway includes gateway, surge suppressor (PNET-1), cables and cabinet
FPT-WKS	FocalPoint graphical user interface software for network annunciation. Workstation UL Listed PC included. (UL Version)
FPT	FocalPoint graphical user interface software for network annunciation. Workstation PC not included. (non-UL Version)
FPT-MOBILE	FocalPoint Mobile Tablet for PC used for non-control network annunciation (Optional)
