# Masterbox Lamp

## Description

The Masterbox Lamp features a genuine Gamewell Masterbox shell mounted on a solid-walnut base. Recognized not only as an American icon but the world's first Fire Alarm, the Gamewell Masterbox is the foundation of the Gamewell 150-year tradition. The Gamewell Masterbox is still very much in production today, and remains on guard in cities and municipalities throughout the world.

The Masterbox lamp incorporates the same Gamewell design used in production units today, featuring a die-cast aluminum shell along with the historic "Gamewell" logo embossed on the peak. This carefully crafted Masterbox lamp is an attractive addition to any fire alarm or fire service professional's office and makes for a unique and classic retirement or promotional gift. It is the only item of its kind sanctioned by Gamewell.

## Operation

The light switch is located behind the front pull-down door. The on / off function of the lamp is achieved by pressing down on the white alarm lever, as you would to trigger the alarm. A 3-way switch is also included at the base of the bulb.

## Construction

The Masterbox shell is constructed of die-cast aluminum, the same material in use for Gamewell Masterboxes throughout America today. The Masterbox lamp, which contains no inner alarm mechanisms, is mounted to a solid walnut wood base. The lamp shade has been designed specifically for the Masterbox lamp and ships in a separate carton. Both the lamp and the lamp shade ship directly from Gamewell's authorized manufacturer of the Masterbox lamp, Arcman Corporation.

## Ordering Information

Complete the order form and send to Arcman Corporation via fax or USPS as indicated on the form. Masterbox lamps are ordered and shipped directly from Arcman's facility in Throop, PA.

## Gamewell Masterbox Lamp
